Limited working proficiency in
Spanish

Limited working proficiency in
Arabic

PURPOSE

I am a UI/Visual Designer that is passionate about making creative, adaptive, and innovative designs. My design philosophy incorporates a strong foundation in design, timeless User Experience principles, and endless curiosity for everyday life.

PROJECTS

Red E Cafe Mobile & Web Design

Proposed a mobile & web redesign that clarified the clients branding as a retailer in addition updating site information. Researched industry trends in order to provide an interactive high-level mockup.

Oregon Parks & Recreation Mobile App

Ideated a recreational app design which translated the Oregon Parks & Rec database into a user-friendly mobile app interface. Crafted detailed icons, wireframes, and an interactive prototype.

Vogue Arabia Design

Created a redesign for the Vogue Arabia mobile & web platforms by placing the Arabic language prominently in the design while maintaining Vogue's typography based branding across a character based language format.
